Quote of the Month:

"Our forefathers made a new constitution, one fitting the revolution. We too need a new constitution for the regulation of voice-over-IP services."
-- FCC Chairman Michael Powell

Consolidated Deploys Myrio IP Video Platform

Posted on: 11/16/2004

PRINT

Myrio Corp., a provider of IP video software and services, announced today at TelcoTV in Orlando that Consolidated Communications Inc. has deployed the Myrio IP Video Platform. Myrio says its scalable platform enables Consolidated Communications to offer advanced digital video services – including video on demand, pay-per-view and digital television – to more than 50,000 local service subscribers in central Illinois.

Myrio's IP Video Platform is Java-based, which works well for interactive services and applications. Myrio says its platform allows Consolidated to reduce deployment time from years to months.
